Forward Looking Statement

Certain statements in this report, including information incorporated by reference, are “forward-looking statements” as that term is defined in the Private Securities Litigation Reform Act of 1995 (“PSLRA”). The PSLRA provides a safe harbor under the Securities Act of 1933 and the Securities Exchange Act of 1934 for forward-looking statements. These statements relate to our intentions, beliefs, projections, estimations or forecasts of future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, or performance to be materially different from those expressed or implied by the forward-looking statements. In some cases, you can identify forward-looking statements by use of words such as "may," "will," "could," "would," "should," "expect," "plan," "anticipate," "target," "project," "intend," "believe," "estimate," "predict," "potential," "pro forma," "seek," "likely" or "continue" or other comparable terminology. These statements are only predictions, and we can give no assurance that such expectations will prove to be correct. We undertake no obligation, other than as may be required under the federal securities laws, to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

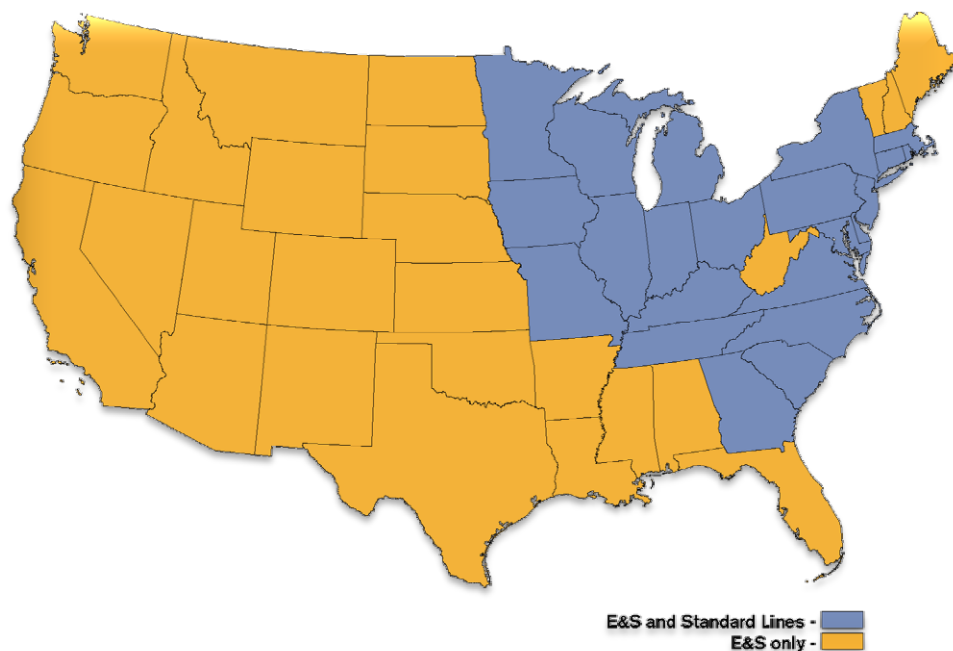

Factors, that could cause our actual results to differ materially from those projected, forecasted or estimated by us in forward-looking statements are discussed in further detail in Selective's public filings with the United States Securities and Exchange Commission. These risk factors may not be exhaustive. We operate in a continually changing business environment, and new risk factors emerge from time-to-time. We can neither predict such new risk factors nor can we assess the impact, if any, of such new risk factors on our businesses or the extent to which any factor or combination of factors may cause actual results to differ materially from those expressed or implied in any forward-looking statements in this report. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this report might not occur.

Foundation for Success

Who We Are

- \$1.7B 2012 NPW
- Super-regional carrier
- Standard lines distributed through independent agents
- Excess & Surplus (E&S) lines distributed through wholesale agents
- 76% standard commercial lines
- History of financial strength

Business Diversification

Standard Commercial Lines

- 22 state footprint
- 1,100 independent agency relationships
- Average account size of \$9,000

Personal Lines

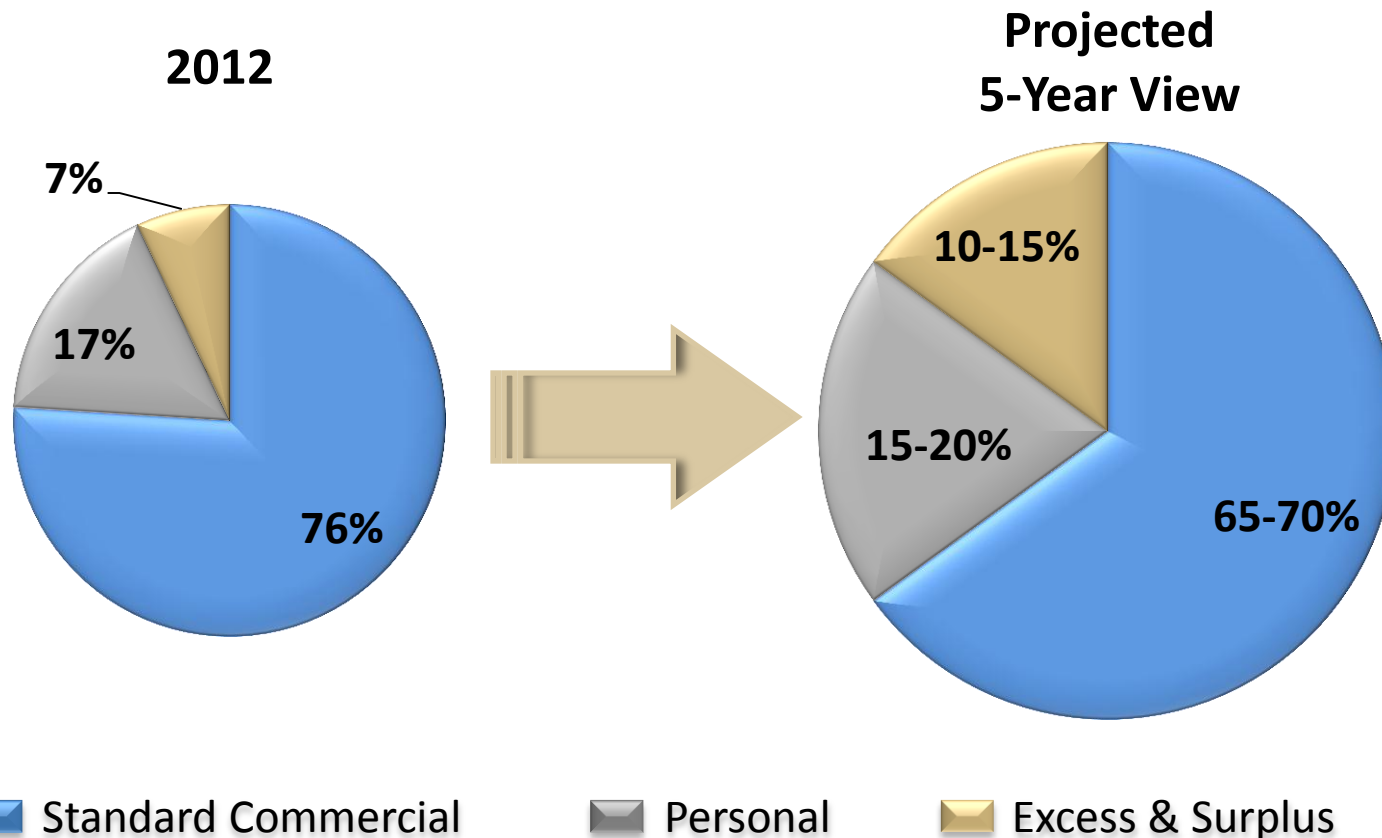

- 13 state footprint
- 620 independent agents
- Agents want joint C/L & P/L markets
- Flood 2012 net income of \$19M

E&S Contract Binding Authority

- Right time to enter business
- Wholesale agents have controlled binding authority and no claims authority
- Within E&S, lower hazard and dollar limits
- Average policy size of \$2,600

Diversification Leads to Profit Opportunities

Net Premiums Written %

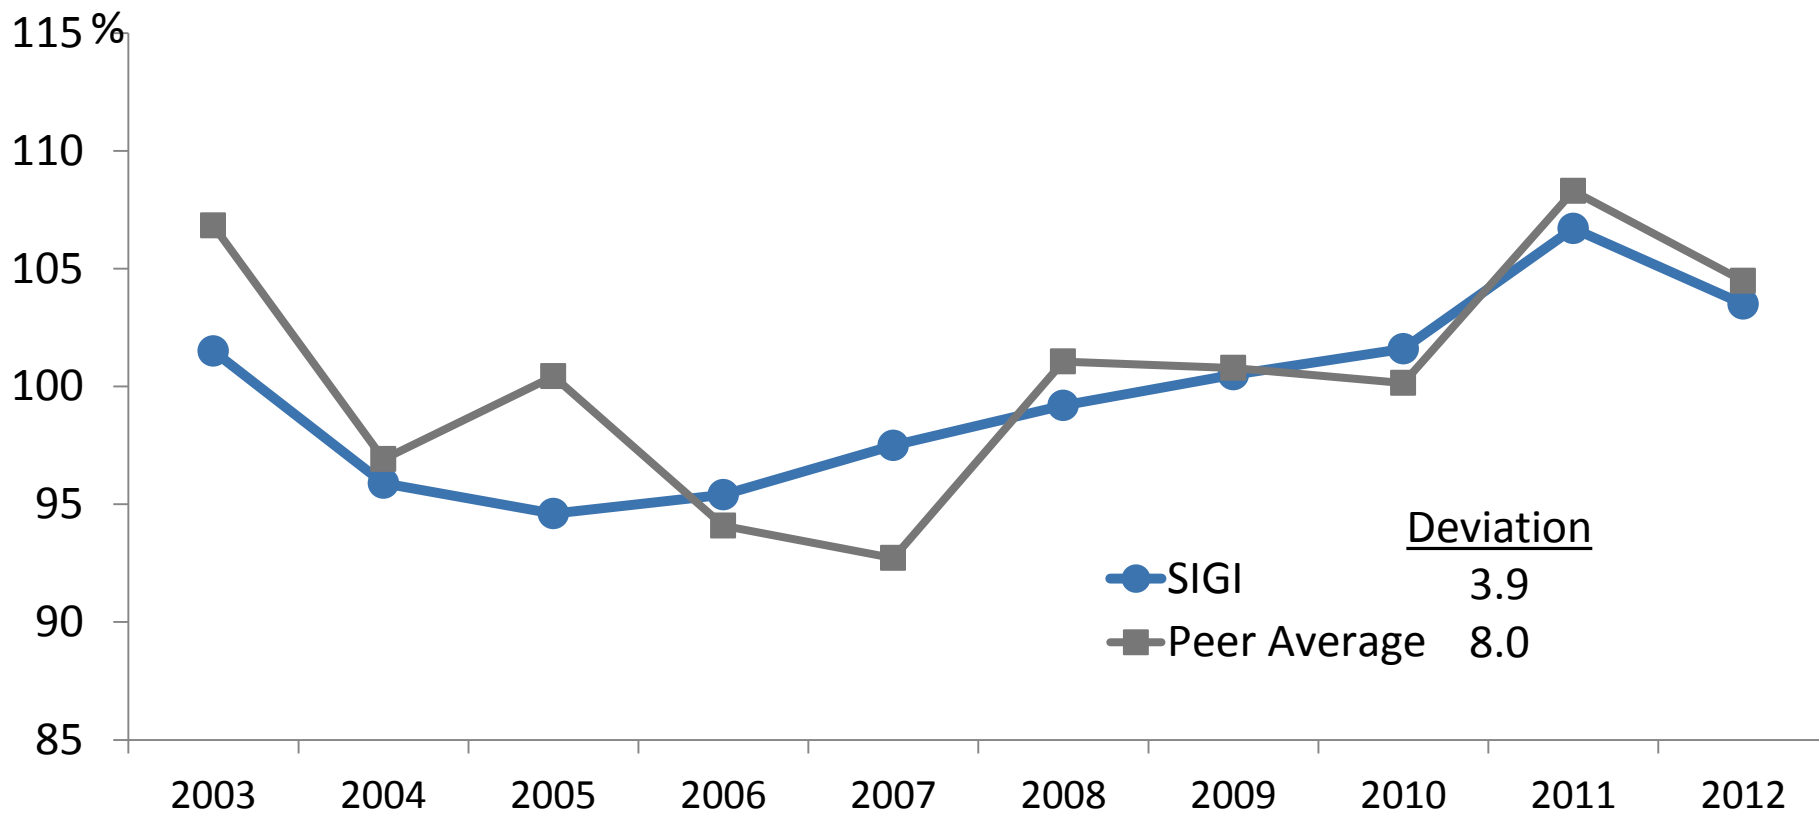

Financial Strength is our Foundation for Success

- Access to capital markets
 - February 2013 issued \$185 million 5.875% senior notes due 2043
 - Use of proceeds:
 - Called \$100 million 7.5% junior subordinated notes due 2066
 - Balance to fund growth
- Underwriting stability
- Disciplined reserving
- Conservative investments
- Benefits of leverage

Underwriting Stability

Statutory Combined Ratio – SIGI vs. Peers

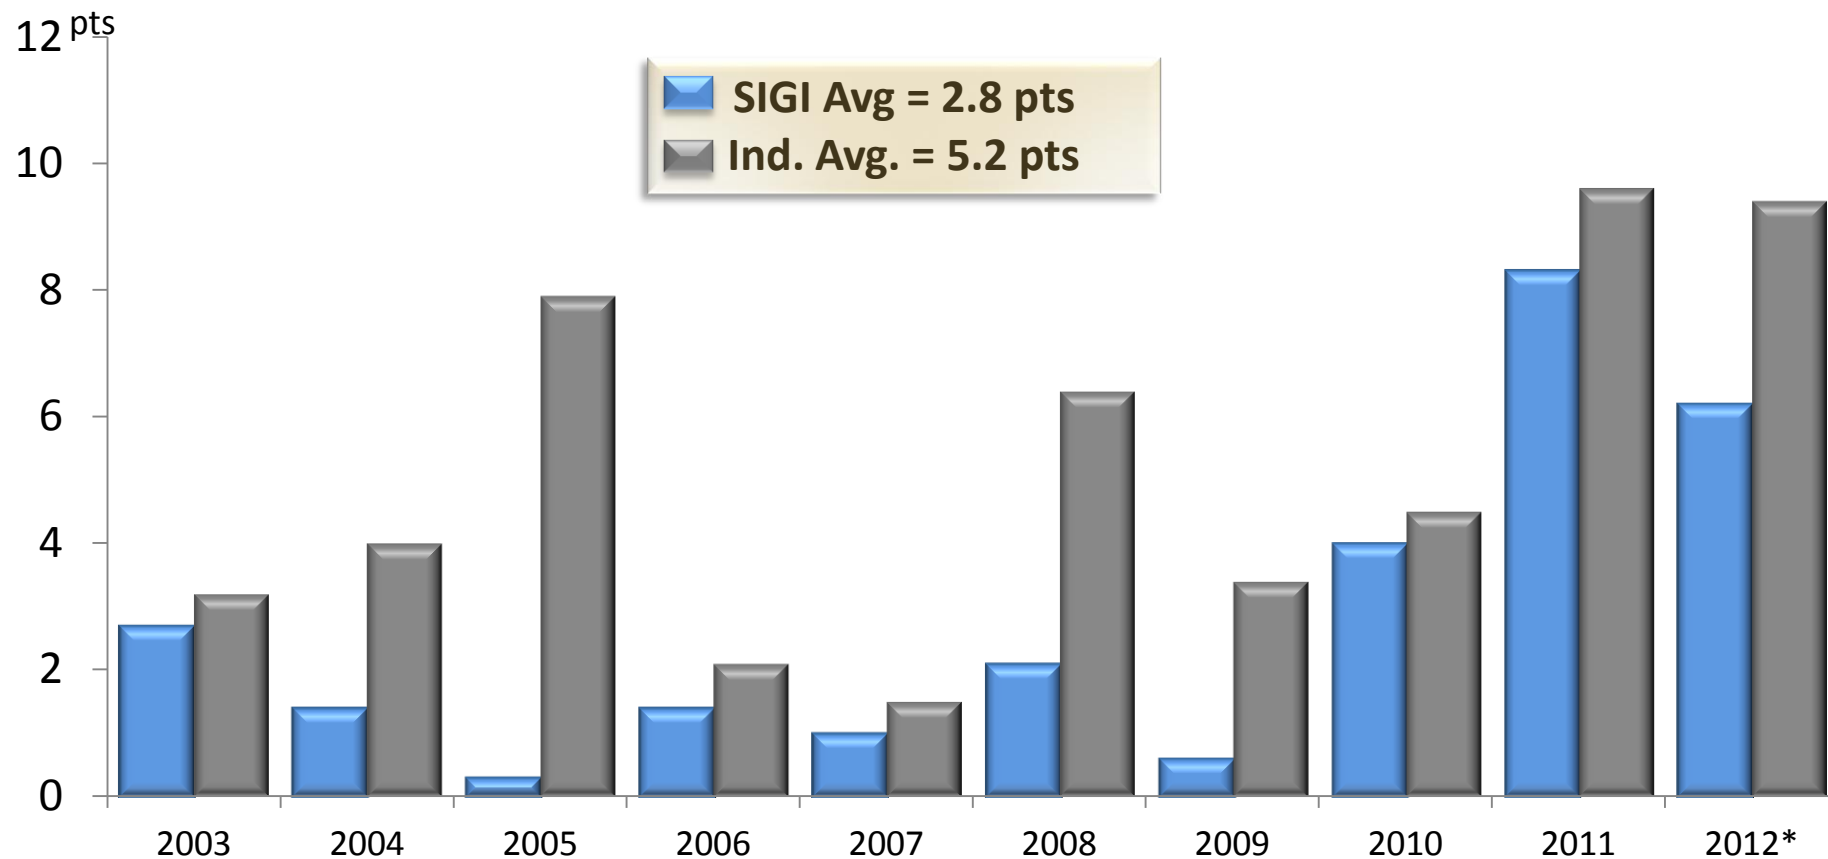

Source: SNL Financial

Peers include CINF, THG, STFC, UFCS, CNA, HIG, TRV, WRB

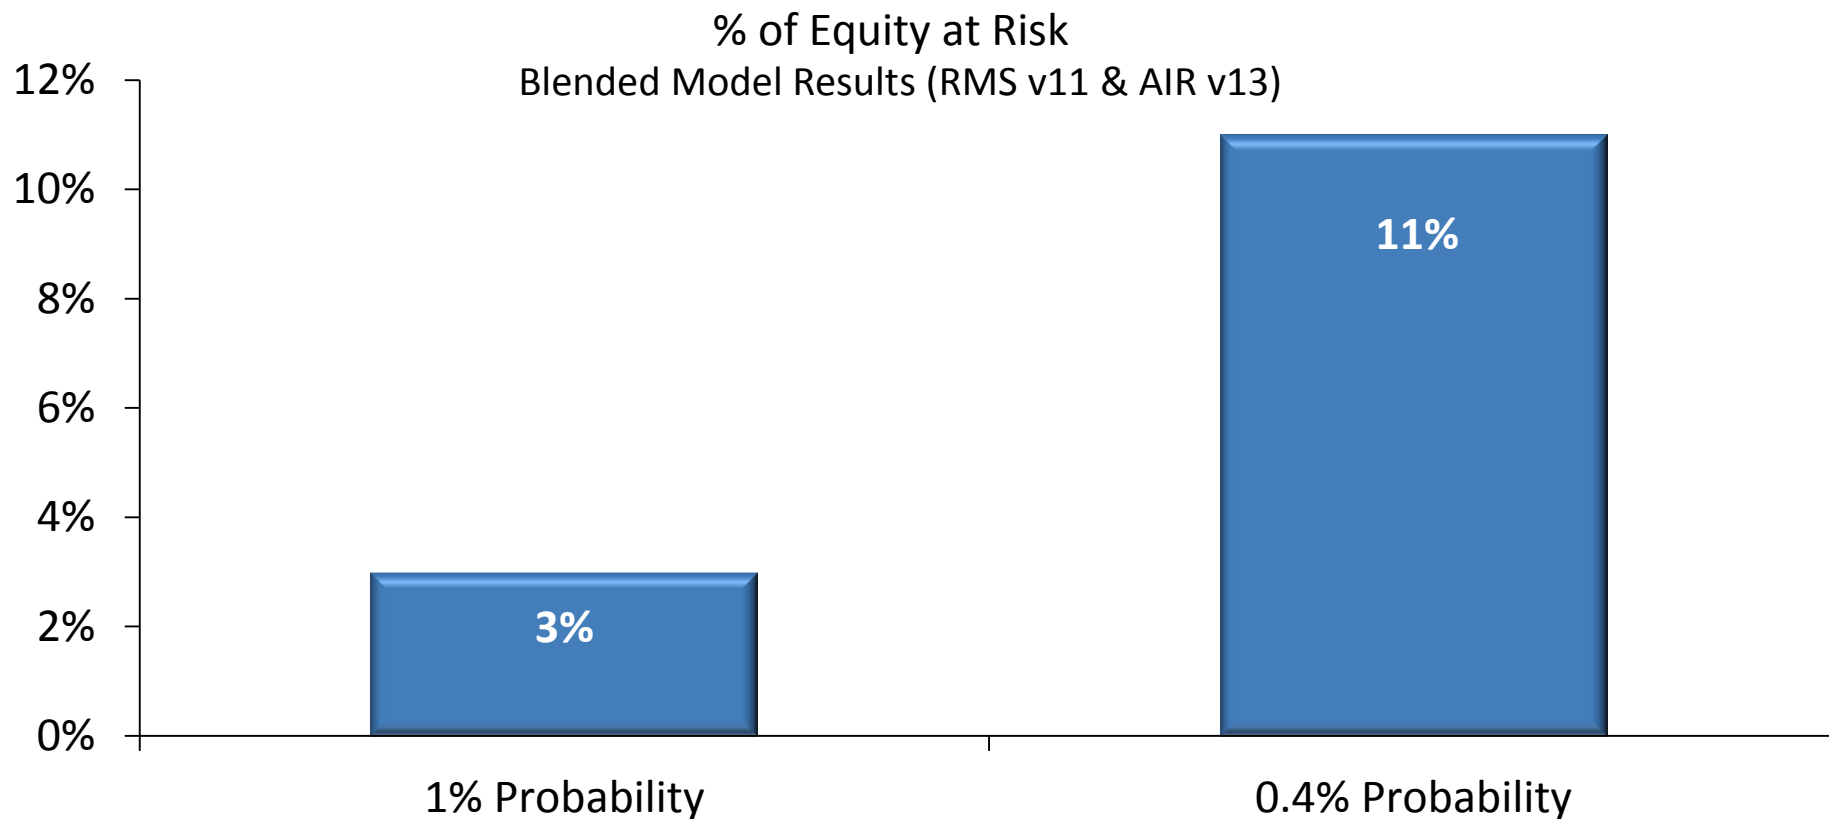

Deviation calculated by averaging the standard deviation of each peer's combined ratio

Impact of CATs on Combined Ratio

*2012 AM Best Industry Estimate
Source: AM Best

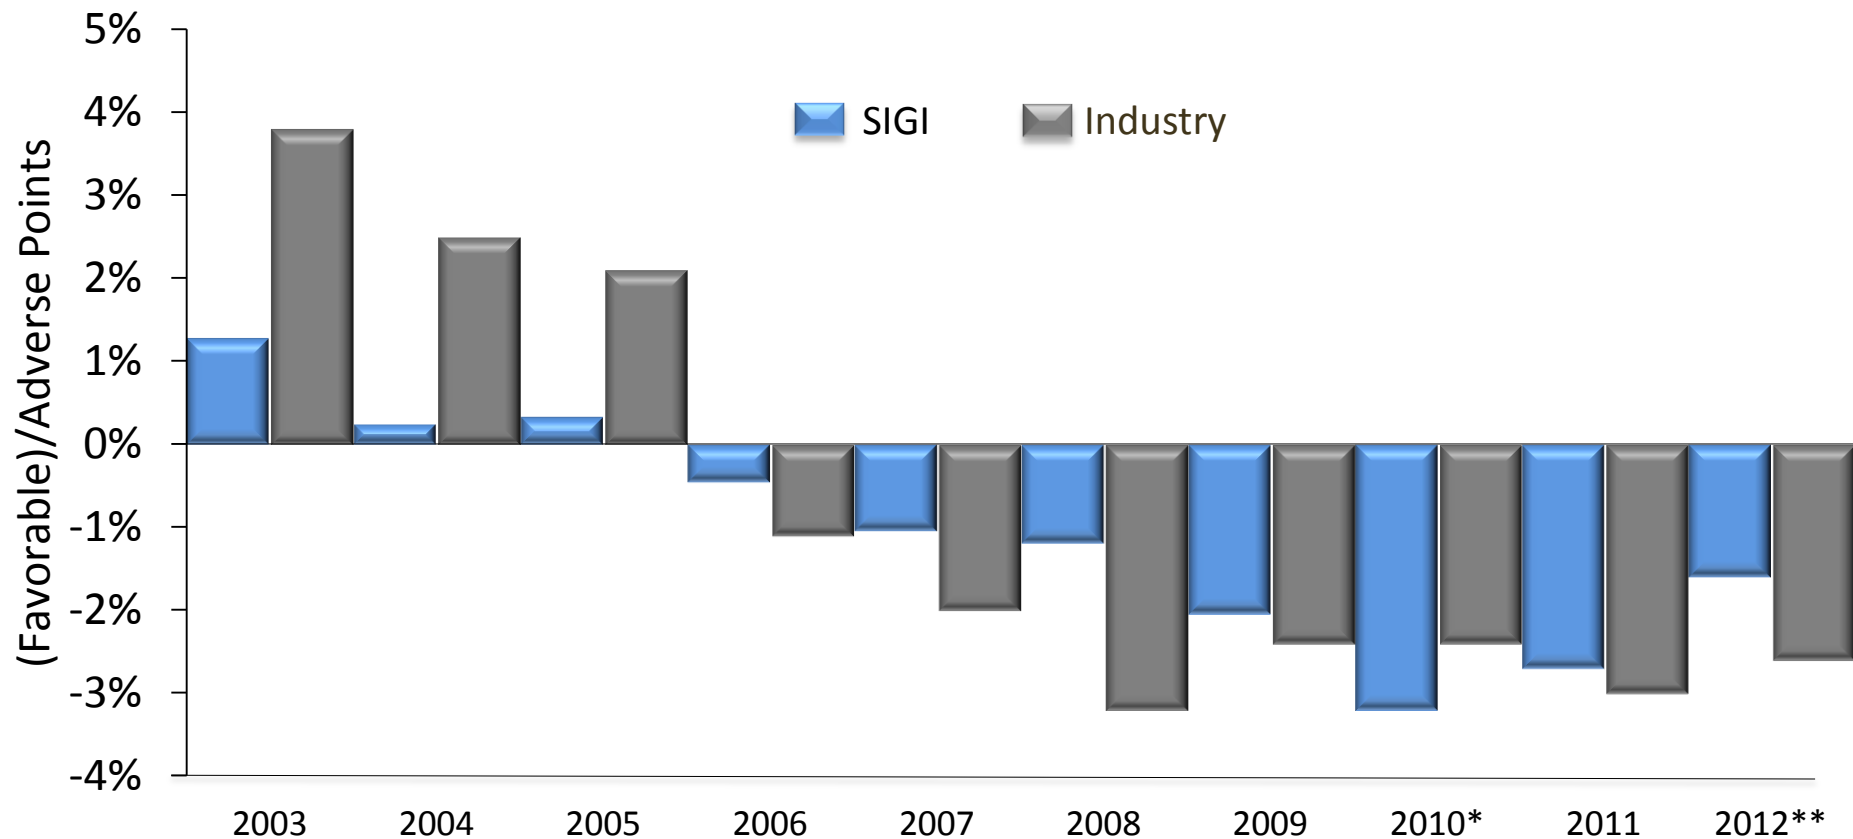

Conservative Reinsurance Program

CAT Cover: \$585M in excess of \$40M

*Percentages are after tax and include applicable reinstatement premium.
Data as of 7/12; Equity data as of December 31, 2012.*

Calendar Year Development

**2010 Industry development includes \$4B charge from AIG*

***2012 AM Best Industry estimate*
